## Dominican Troops Reported Poised for Haiti Invasion

SANTO DOMINGO, Dominican Republic (AP)-More than 1,000 Dominican troops supported by tanks and rocket-firing combat planes massed near the Haitian border today awaiting orders to strike.

In Washington a peace mission for the Organization of American States was reported seeking wider powers to head off the threatcan Republic and Haiti.

Describing the situation as 'highly tense," Gonzalo Facio of Costa Rica, president of the OAS Council, called an executive session of the council to study the four-nation mission's report on its survey last week of the situation

()uestion Box

Question No. 218: "In a recent Question Box, were you implying that the owner of property should be a mind reader in order to morally defend what belongs to him? Second, at what point, in time does this lad become responsible? (Don't exceptions just 'bug' you?) Last, doesn't this 'morally inflicted' sense of responsibility border on altruism?"

Answer: The question and answer related to defensive measures, such as explosives automatically triggered so that any individual would be destroyed who accidentally encountered this triggering device. We contended that such a device would be aggressive since there would be no safeguard to protect a small lad who "means no harm" who might inadvertently wander onto the property being "protected."

Our objection was to the method of "defense" since it would be impossible for the defender to discriminate between unintentional and intentional trespass. Since we disapprove the method we are not asking an individual to be a mind reader and we were not attempting to determine when an individual becomes self-responsi-

### Science Shrinks Piles New Way Without Surgery Stops Itch-Relieves Pain

New York, N. Y. (Special) -For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain - without

surgery.
In one hemorrhoid case after another, "very striking improvement" was reported and verified by a doctor's observations. Pain was relieved promptly. And, while gently relieving pain, actual reduction or re-traction (shrinking) took place. And most amazing of all -

In fact, results were so thorough that sufferers were able to make such astonishing statements as "Piles have ceased to be a problem!" And among these sufferers were a very wide variety of hemorrhoid conditions,

some of 10 to 20 years' standing. All this, without the use of narcotics, anesthetics or astringents of any kind. The secret is a new healing substance (Bio-Dyne") - the discovery of a world-famous research institu-tion. Already, Bio-Dyne is in wide use for healing injured tissue on all parts of the body. This new healing substance

is offered in suppository or oint-ment form called Preparation H\*. Ask for individually sealed convenient Preparation H Sup-positories or Preparation H Ointment with special applicator. Preparation H is sold at
